IN THE OIL FIELDS, OSAGE CO. OKLA.

Solutions For a
New Economy

Long before the oil beneath our feet
was pumped to the surface, our
people had an economy based on
trade, hunting and gathering.
Today, it is about a world economy
that translates to oil prices rising and
falling with political whims and Wall
Street whims.

OSAGE PRODUCERS

continue to court the Minerals Council
with the latest technologies available
some highly secret and spoken
about only in Executive Session...so
when you listen to the Minerals
Council on a webcast don't dismay
that we are keeping things from you,
we are not, we are allowing the new
players and sometimes the old dogs
let us in on the latest gadgets that
make them desirable in the quest for
cheap oil.

Exploring - Shareholder's Preferences

This is your paper. It is designed to serve you. Thus, we as a Minerals Council want your input on many facets of its content. We are certain you want to know what the highest posted price is, as well as "Payment". The economy and politics all factor in to the climate of what oil will do.

One thing is certain, when you hear those pump-jacks echo on a still night you know it is the sound of sweet crude that has put a roof over our heads, food on our tables and clothes on our children.

In the past newsletters were generated to the shareholder's/annuitants by the BIA. This Minerals Council believes you have a right to know directly from us exactly what is happening in the Osage.

To have a voice and to receive this Quarterly publication in the future we ask you to complete the stamped postcard enclosed and mail it back. You will not receive another newsletter unless you do! Why? The BIA protects your privacy. This first issue was sent by BIA using the confidential list on file.

In order to compile our own database it is necessary for you to tell us who you are.

On the postcard there are two boxes indicating two choices. Check the one you prefer:

- ☐ I prefer to receive my newsletter by mail.
☐ Save the Council Postage – here is my email address: _____.

We would still like to know your current mailing address in order to notify you of special events or important issues. We will never give out your information without your written consent. Last, please list on the card, the news and information most important to you that you would like to see covered in the newsletter.

You are our constituents; we value your insight, concerns and interest. If you have concerns or questions, our contact information is on page 3. Our office staff is also there to serve you from 8:00A.M. to 4:30P.M. (CST)

Reception: 918-287-5346

OIL –GAS –
Production!

It was Boone in June!

Protection of the Minerals Estate is foremost in Councilwoman Cynthia Boone's mind. The agenda is simple; uphold the 1906 Act and our heritage is protected. Intervention in the diminishment of that Act is primary

Cynthia became involved with Osage politics when she retired and faithfully attended Tribal Council meetings. She was encouraged to run for office.

If there is one message she would like to send to her constituents it is that, "It is an honor to have served as your elected official from 2006 – 2010 and a greater honor to have been the only incumbent re-elected having received the most votes. It is difficult however, to state it in one message. I believe in honesty, accountability and an open door policy. It is with great humility that I continue to serve to protect the interests of the OSAGE headright owner. Thank you for voting Boone in June.

Pawhuska, Oklahoma is Cynthia's hometown where she lives on the same allotment property that has been in her family for generations. She is married to Tom Boone and they have two sons; Her eldest, Tom Jr. who serves on the local School Board and Daniel who is serving his first term in the Osage Nation Congress. She also has a Granddaughter by her eldest son. Look for the next featured member of the Council. Chairman Dudley Whitehorn, in the 2011 first quarterly issue coming in February.

CHAIRMAN'S QUARTERLY REPORT

THE BARREL-BOTTOM LINE

August 11, 2010

Osage Shareholders:

Payment for the third quarter (September, 2010) will be \$7,320.00 per headright! Your payment was based on total revenue of \$16,325,432.00 for the second quarter production and collections. (\$16,325,432.00 divided by 2,228,97393 head-rights equals \$7,320.00 rounded back to the nearest \$5.00).

The following are amounts broken out to show major details of the \$16,325,432.00.

Oil and Tank Bottoms production for the second quarter was: 1,179,160.57 gross barrels or 186,268.22 royalty barrels with oil revenue of \$14,276,913.15. The average price per barrel of oil was \$76.65.

Gas production for the second quarter was: 3,298,442 gross M.C.F. or 577,640 royalty M.C.F. and 2, 249,051 gallons. Total gas revenue for second quarter was \$2,157,716.40.

Sand and Gravel royalty for second quarter was \$95,597.77.

Oil & Gas Bonuses collected for second quarter was \$640,240.00.

Water use royalty for second quarter was \$34,987.42.

Interest earned for second quarter was \$74,828.21.

Miscellaneous revenue for second quarter was \$37,201.72

Miscellaneous disbursements for second quarter were \$70,321.19.

Gross Production Tax to be paid to the State of Oklahoma for second quarter production is \$821,731.48.

Budget drawdown for C-395 operating expenses for second half of 2010 was \$100,000.00.

Sincerely,
Dudley Whitehorn, Chairman
Osage Minerals Council

Data for this report is provided from and compiled by Jim D.Swan, the Minerals Council Auditor. He is responsible for ensuring our accounts are maintained in strict accordance with Federal law. Jim is also responsible for preparing Monthly Oil and Gas Production Reports. Most importantly he calculates the Quarterly Payment.

P.O. Box 779
Pawhuska, OK 74056

OSAGE MINERALS COUNCIL BEGINS THE BUSINESS OF PROTECTING THE SHAREHOLDERS INTERESTS AND UPHOLDING THE 1906 ACT.

The voters voiced their decision loudly with only a single incumbent retained to her seat. Councilwoman Cynthia Boone reflects on her personal commitment to our heritage and preservation of the minerals estate.
